

TERENCE KING

I graduated from Ephrata, Washington in 1991, graduated from Central Washington University with a bachelors in biology and a minor and chemistry. I joined the Navy in 1997 retired in 2017. I was commissioned in 1998 as an officer and received my wings in 2000 flying the F14 tomcat in the replacement air group VF 101 in NAS Oceana Virginia Beach. I was assigned to VF 32 just before 911, we deployed to Iraq for operation Iraqi freedom from 2001 through 2004. We were right in the middle of

everything. which is probably why they gave me orders to top gun where I was a instructor level for adversary for top gun and all of the other master jet training classes we gave across the United States and in Japan in Hawaii. Our squadron gave lectures to fight quadrants across the United States in preparation for combat operations, I was a subject matter expert and had a lecture of my own. In that squadron, you are allowed to stay as long as you want so I transition to reserve and instructed there for 12 years in Fallon Nevada Before retiring in 2017. My job was basically to teach fighter tactics to fighter squadrons getting ready to deploy into combat operations. I started my construction company in 2007 when I transition to reserve part-time duty with the Navy my company now works in different states across the United States for the Department of Defense. We've worked in New York and all the way to Hawaii.
